Greetings!

Welcome all to the launch of my newsletter, *Blessings from Susan Lynne*.

For over 30 years now, I have shared my gifts with friends and clients across the globe. A fourth generation light worker on both sides of my family, I am a gifted psychic and medium with a deep sense of spirituality.

My intention is to help you see your destiny in clear light and it is my hope that this newsletter will provide you with greater insight as you take each step forward.

2008: A New Year of New Beginnings

Let us all give a spiritual hug and angel kiss to welcome 2008 - a one year in numerology. What a great time to be alive! We are firmly ensconced in the Age of Aquarius and at the brink of opportunities and possibilities. I am seeing all green lights!

By comparison, 2007 was a 9 year, a time for endings, closure and the completion of unfinished business. Many of you may have experienced a sense of uncertainty (and doom even) from about the midpoint of 2007. Since mid October, the Universe has been trying to reverse this effect and show us the wonders that are arriving in this New Year.

There is so much opportunity at this time; I can just feel the surge of possibilities in the air! Later this year, will be one of the most powerful times we have experienced since the early Enlightenment. Take close watch from November 4th on and be ready to harness the many opportunities and possibilities that are headed our way.

One word of caution for the One Year - it is imperative that all negativity be kept at bay. Over the last 5 - 6 years, the veil has been thinning, opening our minds to New Age as well as Eastern Practices. As we become more open to the vibration and energy, we must be cautious as the extreme power and energy of this time means that it is easier for unnecessary worry and negativity to manifest. This is not what any of us want so we must remember to stay positive with our thoughts.

I will leave you with an affirmation for this amazing year and time of greatness:

As I wake up today I inhale the power of the universe and am fully enlightened by love from the highest source. This is my time and all is possible.

Brotherhood, Peace & Community

As we begin this great adventure in the One Year, let us truly honor the sense of community. In the spirit of a New Year filled with new projects, new hopes, and new dreams, it is easy to lose our sense of purpose. This year, while filled with hope and opportunities, is also a year for brotherhood, peace, and community. I urge you to pull from your highest source energy and make this a year of being immersed in inclusion.

You may be saying to yourself, "My life is busy enough." I understand. Here are a few ways we can each honor the energy of brotherhood and drape ourselves in the magic of this time:

- 1) **Hold an open house.** Do not fuss about it being perfect. Make it about mixing and mingling people unlikely to connect on a regular basis. Create joy!
- 2) **Extend a hand, meal, or phone call** to someone you know who is alone. The energy from the gesture will come back to you ten fold.
- 3) **Be part of a cause.** Stop keeping your head under the covers. Even with limited time, your mere interest and effort will provide amazing energy to your personal arena.
- 4) **Truly be one with the environment.** I personally am calling on Arch Angel Seraphiel, the Angel of Light to help us heal the environment's global issues.
- 5) **Spread positive energy.** Just see the possibilities and understand that we are all connected.
- 6) **Be part of the mission to spread orbs of hope and joy.**

Every few months I would like to share the story of either a person or group that exemplifies the true meaning and spirit of brotherhood, peace, and community.

Please send your story or the story of someone you know who has made a difference in truly spreading and sharing the light to: Susanlynne@mediumlink.com. Subject line should read: Orbs of Hope and Joy!
